

1.113.0 Release Notes

Release date: 2026-01-19

New Functionality

Postbacks Page

A new section is now found in the left side bar called Postbacks - Management.

This will allow easy access to manage all postbacks in the system in one place. No need to go individually into each affiliate account. This will make it much easier to manage large companies and you can also extract the full page too.

Postbacks

Manage postbacks of your company

Enabled

Disabled

Find by name

ID	NAME	AFFILIATE	METHOD	TYPE	LEVEL	STATUS
2055	FTD	T testaff ID: 937973	GET	First deposit	Affiliate	Active
2054	REG	T testaff ID: 937973	GET	Registration	Affiliate	Active

Show rows per page

25

The same functionality is found as per the individual affiliate page, however when adding via this page, you will need to give Affiliate ID or Name. In addition to the new page, Postbacks now have the option of GET or POST.

Notes:

- Only affiliate accounts that have postback function enabled are shown in the drop down here. As a reminder, speak to your affiliate manager to enable postbacks if you need this.
- This is only showing the Management page. Log pages are still found individually in the affiliate accounts.

Fixes

- 'Covered Months' is now showing in the new Payments section module, making it easier to recognise which month(s) the payment is applicable for. If this is not showing, you can find it in the Column Chooser to the right. This change is only applicable for those clients with the new payment module.
- Small bug fixes and UI improvements across the platform.
