

1.24.6 Release Notes

Release date: 2023-04-06

New Functionality

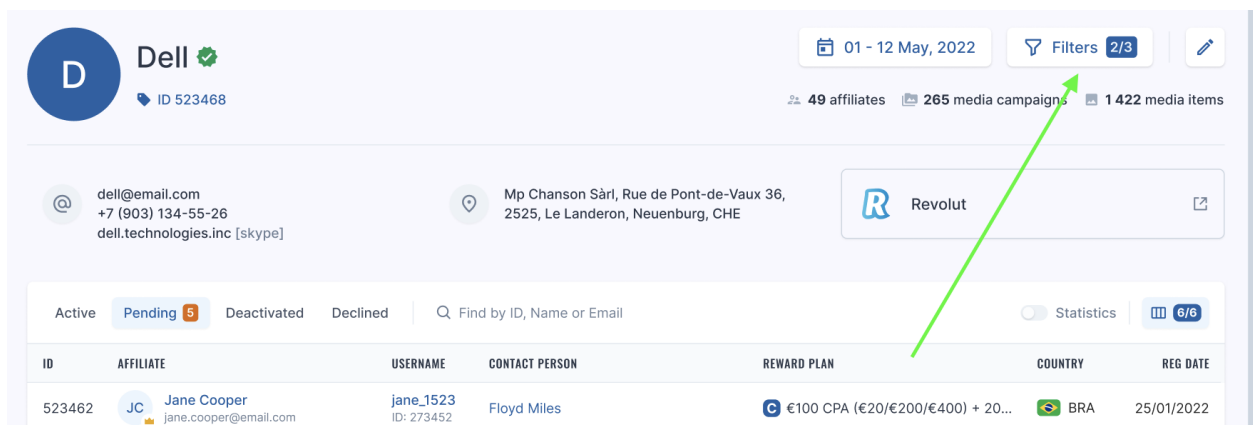

Affiliate Account Page Filters

The availability to apply several filters for the master account is now available, on the following pages:

- My Company (active, pending, declined, deactivated affiliates);
- Affiliate account page (brands, campaigns, media items).

Steps to follow:

- Go to My Company section, choose the desired tab, and apply the filter in the right upper corner.

The screenshot shows the Dell affiliate account dashboard. At the top, there's a header with the Dell logo, ID 523468, and a date range of 01 - 12 May, 2022. A 'Filters' button with '2/3' is visible. Below the header, there's a section for contact information and a 'Revolut' logo. A green arrow points to the 'Filters' button. Below this, there's a table of affiliates with columns: ID, AFFILIATE, USERNAME, CONTACT PERSON, REWARD PLAN, COUNTRY, and REG DATE. The table shows one affiliate: Jane Cooper, ID 523462, USERNAME jane_1523, CONTACT PERSON Floyd Miles, REWARD PLAN €100 CPA (€20/€200/€400) + 20..., COUNTRY BRA, and REG DATE 25/01/2022.

Sport Addition to Dashboard

Figures per product can be now tracked in the various dashboard types

- Turnover and GGR for the current and previous periods;

- The difference in EUR and %.

Steps to follow:

- Go to Dashboard section, scroll down to Products, pick either Turnover or GGR tab.

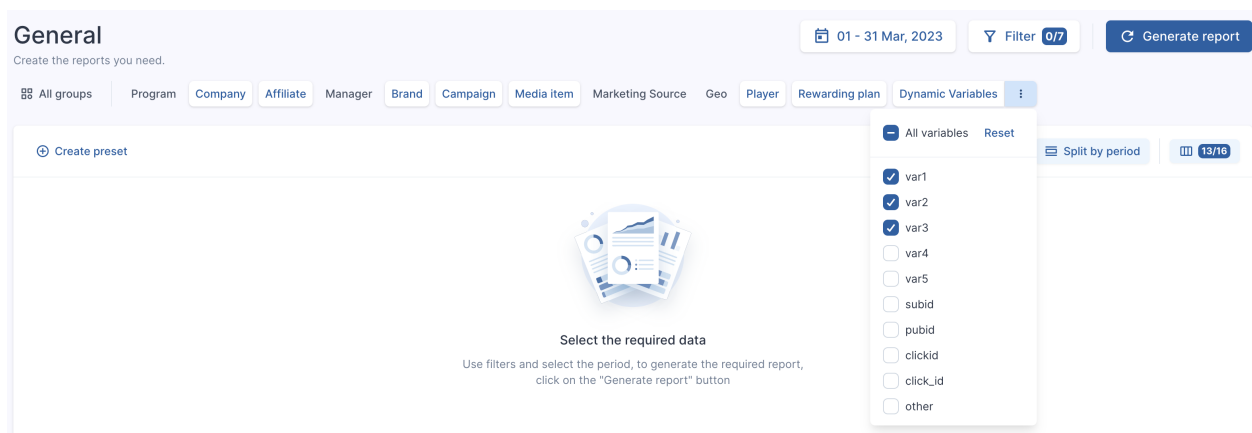

Products						Turnover GGR Go to report →				
PRODUCT	TURNOVER CP	TURNOVER PP	DIFF. EUR	DIFF. %		€0	€700,000	€1,400,000	€2,100,000	€2,800,000
Sport	€2,736,000	---	---	---						
Casino	€2,721,000	---	---	---						

Only turnover is shown for the affiliate interface.

Dynamic Variables Tidy Up

The Dynamic Variables list is now tidied up on the UI. Making for a much cleaner interface.

Any presets or APIs will be unaffected by this change.

Player Registration Date in Reports

The player's registration date is now displayed in the column 'Reg. Date' when selecting 'Player' Group by in the Reports, making it easier to see conversions by Player.

Fixes

The following issues were resolved in this release:

- When editing a media item the description was deemed as mandatory when it is not. This has now been resolved.
- When searching for media items, a filter by Affiliate can be now applied.
- Dynamic reports – Payments is now available.
- The calculation of the revenue-share-to-pay commission has been adjusted; now only positive amounts are taken into account.
- Ascending and descending sorting is now available on all the pages that contain statistics.
