

1.32.0 Release Notes

Release date: 2023-06-29

New Functionality

Total Row addition in Reports and Statistics

When viewing any Statistics pages or Generating a report via General - Dynamic Reporting a Total Row is now available to help gauge total numbers when using a variety of filters or searches.

From Statistics:

CLICKS	UNIQ CLKS	SIGNUPS	DEPOSITING CUSTOMERS	ACTIVE CUSTOMERS
0	0	35	19	19
0	0	423	363	363
0	0	458	382	382

From Reporting:

COMPANY ID	COMPANY	AFFILIATE ID	AFFILIATE	SIGNUPS	DEPOSITING CUSTOMERS	ACTIVE CUSTOMERS	FTD
3105	ReferOn Demo Ltd	5049	Bernadette Zulauf	386	359	359	35
3105	ReferOn Demo Ltd	4981	Janar Lueilwitz	1588	1491	1491	14
3105	ReferOn Demo Ltd	5017	Jannie Beier	912	839	839	83
3105	ReferOn Demo Ltd	5001	Thad Schuppe	1128	1044	1044	10
Total				4014	3733	3733	37

Filters Update

A number of pages now have increased filters available. Lists below are what are available from today;

- Traffic Type
- Media campaign
- Affiliate
- Media Items
- Marketing Source
- Reward plan

Reports - Payments page:

- Payment date
- Amount
- Status
- Brand
- PMT Method
- Type

Reports - Dynamic Reports page:

- Affiliate Signup Date
- Player Signup Date
- Affiliate
- Brand
- Campaign
- Media Item

- Country
- Traffic Type
- Group
- Fixed Fee
- Product
- Dynamic Variable

Fixes

- Minor update on Calendar Date Selector behaviour allowing a smoother use of the tool.
- Column header choice was being resetting when navigating around. This has now been resolved.
- Errors are now more succinct with the error at hand. For example, reset password attempt will state 'User does not exist' if using a bad username, rather than Error Code 404.
