

1.38.0 Release Notes

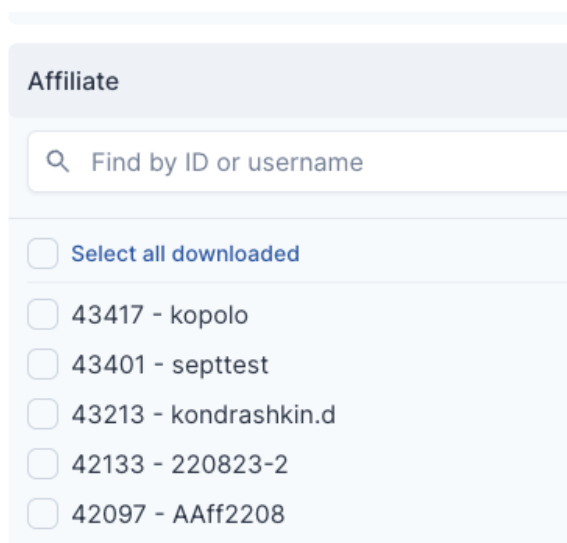

Release date: 2023-09-12

New Functionality

Affiliate IDs and Names in Filters

Relevant to Master Affiliate Login only.

To help with finding your precise affiliate, the ID and Name is now showing in the filters in all areas that use 'Affiliate'.

The screenshot shows a web interface for filtering affiliates. At the top is a header labeled 'Affiliate'. Below it is a search bar with a magnifying glass icon and the placeholder text 'Find by ID or username'. Under the search bar is a list of checkboxes, each followed by an affiliate ID and name. The first checkbox is labeled 'Select all downloaded' in blue text. The other checkboxes are labeled with IDs and names: '43417 - kopolo', '43401 - septtest', '43213 - kondrashkin.d', '42133 - 220823-2', and '42097 - AAff2208'.

As a reminder you can search multiple items in ANY filter in the system by using comma delimitation, i.e. 123,456,789.

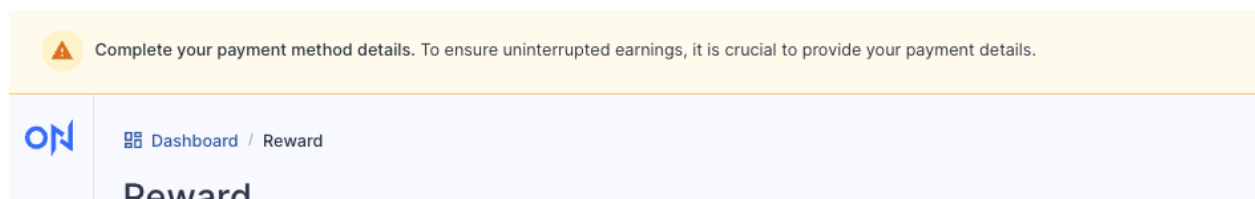

Affiliate Name and Username Swap

Based on feedback, we are now showing affiliate username instead of affiliate name in the following locations:

- Media Items
- Customers
- Dynamic Report
- Payments Report

Update Payment Method Prompt

When a master affiliate has logged in and has not filled in their payment details yet, a prompt will appear at the top of the page asking them to fill in the details.

The user must either press Skip or Complete on the prompt.

When clicking Complete, it will redirect to the Payment Method screen.

If the user presses Skip, the prompt will be hidden until their next log in.

Keyword Searching

It is now possible to search by keyword in Campaigns. Use the tool box to the right and select Keyword from the drop down.

Brand Filter Addition

When within a particular affiliate page, a brand toggle filter is now available at this level, which grants an even quicker flow to generate trackers or see brand performance.

This works in the same way as the Brand toggle filter in Media - Campaigns.

Default Columns

Any user may now select particular columns for various pages and this will be saved across the platform until next session, allowing for easier checks of data and statistics without needing to reselect columns as you navigate away and back again.

Fixes

- Based on feedback, the Reward dashboard is now the default dashboard screen for affiliate logins, rather than Revenue.
- Breadcrumbs of navigation for My Company when an affiliate logins now displays correctly.
- Minor design issues have been fixed throughout the platform.
- A number of minor rewarding issues have been resolved.
